Re: Sanitary Landfill Permit #1972-5
Chicago Heights, Illinois
Our letter dated March 7, 1975

Dear Mr. Clark:

Please refer to our letter dated March 7, 1975, requesting a supplementary permit for disposing of the oil and water mixture from the Ford Motor Company (copy attached).

In this letter we failed to mention that in the spring, summer and fall, when we have hot and dry weather, we dispose of this liquid by dumping it on our roads that lead into our dumping sites in our landfill, to settle the dust. When it is not needed for this purpose then it is mixed in with our regular refuse.

Yours very truly,

INDUSTRIAL BUILDING OPERATIONS

Dear Sir;

Following is a description of the oily waste being hauled from our plant by the Reliable Liquid Control Corporation:

The loads contain from 99% water and 1% emulsified oil to 70% water and 30% emulsified oil.

PH 8.0 to 9.2

Suspended Solids 3,000 PPM to 39,600 PPM

C.O.D. 36,000 PPM to 39,000 PPM

The emulsified oil contains:

0.12% sulfur

0.14% Chlorine

0.94% Pentane Insoluable

0.69% Benzene Insoluable

462 PPM Iron

1 PPM Chloride

287 PPM Zinc

3 PPM Phosphate

150 PPM Sulphates

Yours very truly,

Permits

Re: Sanitary Landfill Permit #1972-5
Chicago Heights, Illinois

Dear Mr. Clark:

We are requesting a supplementary permit for the above subject landfill to receive liquids from Ford Motor Company, Chicago Heights, Illinois. This liquid will amount to approximately ten (10) loads per week, varying from 1500 to 2000 gallons per load.

Attached is a letter received from Ford Motor Company which lists the components which make up this liquid. The material is to be brought to our site by Reliable Waste Oil Company, Chicago, Illinois and will be mixed daily with other refuse.

We have informed Ford Motor Company we must acquire a supplementary permit from the Environmental Protection Agency granting us permission to dispose of this liquid and we would very much appreciate your taking prompt action on this.

Yours very truly,

INDUSTRIAL BUILDING OPERATIONS

L. A. Swanson
